Mr.COLOR GX

This paint features brighter color, higher foundation screening effect and stronger film than the former Mr. Color. It may be mixed with the former Mr. Color and diluted with the conventional Mr. Color Thinner or Mr. Color Leveling Thinner.

Mr.CRYSTAL COLOR

Mr.Crystal Color can offer a totally different dimension of metallic sense from existing pearl paint or metallic paint. The pearl color shows up in different shades depending on whether the base color is black or white. Moreover, when clear paint is used for over coating, an extra special metallic texture can be achieved.
